

Thunder Warrior

Titan MK-16

1. Non-stop firing and speedy switching of multiple loadings of electric stitch, pepper ball, and rubber ball. Total solution for safe guards and suspect quells. Superior accessories include laser aimer (pointer), power indicator, whistle, siren, and arms-length safe guard.
2. Electric stitch effectively immobilizes the targets by 3.5 to 5 meters.
3. Pepper ball effectively immobilizes the targets with coughing by 10 to 15 meters.
4. Rubber ball effectively immobilizes the target by extreme pain by 10 to 15 meters.
5. Innovative cartridge magazine designed for speedy re-loading and switching between various stitch and bullets. Particularly supersede traditional models in easy switching, easy re-loading, and non-stop firing.
6. Specification:
 - a. Power supply: Two 9V Batteries.
 - b. Voltage: High at 80KV
 - c. Current: under 50 μ A
 - d. Discharge speed: 5 -10 times /second
 - e. Weight: grams (exclude bullet carrier)
 - f. Material: ABS , Plastic steel
